Hello! My name is Kiwi. Did you know that it's the name for both a fruit and a person from New Zealand? I think that's kind of cool, even though I'm not a fruit or from New Zealand, although I do know that New Zealand just won the rugby world cup. I'm smart like that. I am also darling, sweet, and loving. Big, noisy, public events like adoption days and fairs make me a little nervous, so I'm having trouble letting the world know just how adorable I am. I'm about five years of age and in a foster home where I get along fine with the other kitties and even a small dog. I've had my shots, been spayed, and am really ready for a home where I can show all the love I have to give. If you would like to come and see me in my foster home, just make an appointment by calling 925-915-9489. If the voicemail is full, please call again or send an e-mail to [lsoucie1@yahoo.com](mailto:lsoucie1@yahoo.com). The adoption fee at Pets and Pals Rescue is \$100 plus \$15 for a microchip.
