

Penguin

Hi everybody! My name is Penguin. Yep, Penguin. You know, like all those cool birds in the tuxedo suits that star in the movie "Happy Feet." I've got the same coloring (yes, I'm a dapper lad in a tuxedo) and I'm so happy to have found an indoor place to stay that I very well could spend all my days dancing around with happy feet. ;-)

My foster mom found me as a stray living outside and was really surprised anyone would've let a gem like me go. I'm a young guy (under a year of age) and have the great combination of being young enough to play and make you laugh but am past those wild destructive kitten days. I'm very smart - my foster mom has even taught me some tricks using a clicker - and incredibly sweet and affectionate. I love everybody and will greet people and rub up against them when I first meet them. I like to chat and snuggle and give head butts and then just purr purr purr with happiness. I also get along with other kitties (with proper introduction). I weigh about 11 pounds and have been neutered, microchipped, tested negative and am up to date on all my shots. Hey, if you'd like to see me in action, here I am on YouTube:
