

The Velvet Girls

Winky

**Mimi
Muffin**

Hi there! My name is Mimi Muffin and this is my sister, Winky. We are also called "The Velvet Girls" because of our luxurious, silky black fur. I love to nap in grocery bags and weave my way around table legs, finding my way to you for some affection. In fact, our foster mom says I am a love bug because I love to cuddle and show up at every petting opportunity - except when new people come to visit! (I do get nervous around new people, but if you give me time, I am always eager for a pet.) You can tell us apart because Winky has a white star on her chest and really does wink and blink when she is content; she also has the sweetest little meow. She gets so excited when she is groomed and petted that her tail twitches! We are about two years old, spayed, tested negative, up to date with our shots, and microchipped. We are both very sweet and gentle. We are a little, ahem, on the large size with excellent appetites, but that just means there's more soft velvet to love!
