

Kittens!!!!

The Lake County Animal Care & Control has and will have lots and lots of kittens and mama cats looking for homes throughout the spring and summer! So if you're looking for an adorable kitten or young mama cat with kittens, please check our web site (but realize that it could be a bit out of date as we are so busy...). The kittens in the photo have been adopted but are a sample of the kittens that we have...so come make the drive north and see who we have! We are a small rural shelter with few resources and we need your help to save as many animals as possible. We are about 2 hours from Oakland and our kitties are worth the drive!!
