Hello! My name is Bailie. It's kind of the female version of Bailey and, as I'm sure we all remember, George Bailey was the lead character in *It's a Wonderful Life*. Well, I have had a wonderful life, but unfortunately after spending the first nine years in the same house I have to find a new home because a family member has developed serious allergies. I've always been an only kitty and would do best in that situation. I do very well with humans and am wonderful with kids. I am quite talkative and friendly, but I prefer to be held on my own terms. I love to cuddle, especially at night (very important on cold nights, don't you think?). My family really loves me and hopes I can find a home where I am loved just as much. I don't think that will be hard because I'm pretty darn lovable.
