Hi everybody! We are three cats who lived happily indoors in an office in Napa. Unfortunately, the office closed, and we can't live indoors at our new house. Two of us -- Powderpuff and Blizzard -- are unhappily living outdoors near Lake Berryessa (a rough area for cats) until we can find a new home. Poor Argonaut was having such a hard time living outside that he was taken to a shelter. Friendly humans are tracking down the shelter, but in the meantime if you can help any of us out, even with a temporary situation, we would really appreciate it. We've always been indoor cats and are not doing well in our new environments. We are all fixed, in good health, and just looking for a little TLC. We are all five years old. Can you help us? Don't worry about transport -- we can find a ride to you!
